

Gardiner's Cemetery Project Update Mon 3/22/2021

The columbarium's were installed at Gardiner's Cemetery this past Friday. Attractive, solid, and fit in with the aesthetics of the headstones. They are completely constructed of granite (no aluminum or wood cores to shift), with a total of 64 niches (16 per side with 4 sides). Pictures are below.

The Cemetery Board is considering writing an article for the May issue of the Millbrook Times.
